

The FAA Safety Team presents:

Mayday, Emergency!

When is the right time to declare an emergency? What do you say? What do you do? What should you expect? This briefing will feature Air Traffic Control (ATC) tapes and videos of real-life emergencies! We will discuss how you would have handled a similar situation had you been the Pilot-in-Command (PIC). This seminar will also address ADSE-X (the new transponder procedures at towered airports) and runway incursion mitigation strategies. Attend this exclusive briefing and become a better, safer pilot!

Directions: Attendees with a government ID and whose vehicles have current DoD decals may park on the academy grounds. (Mitscher is located on Brownson road across from the athletic fields, parking for DoD vehicles is available there). Civilians attending should walk through Gate 1 (visitor's entrance) and may park anywhere in downtown Annapolis. (recommend parking off of dock street in the parking lot near the city marina office). Gate 1 is open to pedestrian traffic Sun-Thurs 0500-0000.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASteam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
